

Name:

Please ask your parents to keep all your Chinese worksheets in a safe place so you can bring them back to school to show me your lovely work.

Hope you had a safe and enjoyable holiday. Now have fun with this week's activities. Try to finish this by Thursday.

You have learned the different parts of the face and hand in Term 2 and 3. Look at your Week 10 worksheets and check whether you have labelled the face and hand correctly.

Scan this  or go to You Tube and type in 'Yeah Chinese My Face Song' in the  bar at the top, watch and listen to the face parts again. Did you notice there is  and  at the end of the song? You have learned  which means hand so  means clap your hands.  means foot so  means stomp your feet.

Now ready for some actions? Scan this  and listen to my instruction. Remember   means touch. I am adding hands and feet too.

**L.I.: Numbers 11 – 15**

**S.C.: - I understand how the Chinese numbers are formed based on the place value.**

**- I can say and write the numbers 11 – 15.**

Do you still remember how to say and write the numbers 1 – 10? Write them in the boxes below and say them again.

1	2	3	4	5
—				
6	7	8	9	10

Are you ready to learn how to say and write the numbers 11 -15? Scan this  and **touch the speaker** at the top left corner to listen. Once you can hear my voice, touch the bottom part of the slide, the play bar will disappear so you can look at the slide while listening to the explanation.

Do you know how to say and write 15? We start with 10 <sup>shí</sup> + and add what number? Write it.

15 is 10 +  , so in Chinese it is 十 +

Do you think you know how to form the numbers 16 -19? We will look at them next week.

Thank you for trying <sup>xièxiè</sup> 谢谢.
