

L.I.: Being Australian

S.C.: - I can recognise/write the Chinese names of states and territories in Australia.

- I can label the states and territories on the Australian map.

Do you still remember the four directions in Chinese?

dōng                      nán                      xī                      běi  
东 east                  南 south              西 west              北 north

This should help you identify the Chinese names in the Australian states and territories.

**Western** Australia is 西澳大利亚 (西澳) ; **South** Australia is 南澳大利亚 (南澳) ;

**Northern** Territory is 北领地 ; and New **South** Wales is 新南威尔士. The others are mainly by transliteration.

Match the Chinese names, pinyin and the English names of the Australian states and territories by writing the pinyin and English names in the columns. Refer to the word bank below if needed. ACT is done for you.

Name in Chinese	pinyin	Name in English
新南威尔士		
北领地		
西澳		
南澳		
塔斯曼尼亚		
维多利亚		
澳大利亚首都领地	ào dà lì yà shǒu dū lǐng dì	Australian Capital Territory
昆士兰		

Pinyin:

xīn nán wēi ěr shì	nán ào	tǎ sī màn ní yà	běi lǐng dì	kūn shì lán	xī ào	wéi duō lì yà
--------------------	--------	-----------------	-------------	-------------	-------	---------------

English:

Tasmania	Northern Territory	Victoria	New South Wales	Queensland	Western Australia	South Australia
----------	--------------------	----------	-----------------	------------	-------------------	-----------------

How did you go with the names of states and territories? Next you have to locate them in the map.

Label the map with the Chinese name **or** pinyin onto the map below. Australian Capital Territory 澳大利亚首都领地 is done for you.

Are you an expert in Australian states and territories? This is the first step in becoming a tourist ambassador for Australia. 😊

Well done and you deserve this 👍 !
