Term 3 Week 3

Year 4

Name: _____

L.I.: Food – Chinese food ^{zhōngguó shíwù} 中国食物

S.C.: I can name at least four types of Chinese food.

Do you still remember the types of Chinese food you have learned? Go to the 中国食物 mini book or worksheets in your Chinese book to revise.

Write 4 types of Chinese food in Chinese or pinyin below.

Example: 北京烤鸭 or běi jīng kǎo yā

1. _____

2. _____

3. _____

4. _____

Let's revise how to say and write China. You should already know how to say it and what the characters look like.

China is ^{zhōngguó} 中国 and Chinese is ^{zhōngguóde} 中国的 as you should know ^{de} 的 means belong to.

Now it's writing time. Write the character 10 times in the boxes. Remember top to bottom, left to right. Follow the strike order and one word per box.

zhōng 中		冂	口	中	middle
------------	--	---	---	---	--------

--	--	--	--	--	--	--	--	--	--

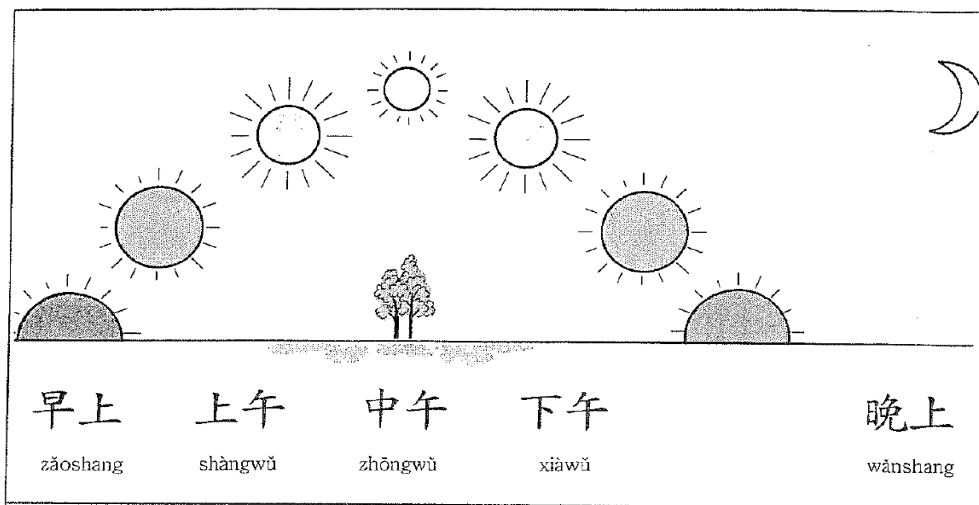

guó 国		冂	冂	冂	冂	国	国	国	kingdom
----------	--	---	---	---	---	---	---	---	---------

--	--	--	--	--	--	--	--	--	--

The two Chinese characters each has its own meaning and putting the two characters together forms a new expression which is a name in this case. This is a very common way of making new expression as you can remember fruit 水果 is water (juice) and fruit put together which means juicy fruit.

中 means middle and 国 means kingdom or nation. China used to be called the Middle Kingdom because China used to be the centre of civilization in Asia and all other nations used to come to China to pay tribute and learn from China.

Let's try to make up expressions combining the time of the day and the character 餐 (meal).

The day can be divided into morning ^{zǎo}早, afternoon ^{wǔ}午 and evening ^{wǎn}晚. Complete the three sentences by writing breakfast, lunch and dinner in Chinese or pinyin below and write the time you have the meal. Look at my example about dinner but **do not** copy it.

wǒ 我	wǎn 晚	shàng 上	8:00	chī 吃	wǎn 晚	cān 餐	。
---------	----------	------------	------	----------	----------	----------	---

Thanks for the effort.
