

Please glue all your Chinese worksheets in your Chinese book so you can show me your lovely work when we are back at school. You can also do it in Google Classroom and submit it online.

Hope the QR codes worked and helped. Let's have fun with this week's activities. Try to finish this by Thursday.

Start with writing the date as we always do in Chinese classes.

今	天	是					年		月
		日	星	期		。			

天	气	:				
---	---	---	--	--	--	--

Have you actually done your part in taking care of the environment? Remember the ways suggested in the video? Did you find it hard to write 8 ways you can do to take care of the environment IN CHINESE? Check your answers with the ones below. You only need eight.

1. Save energy ^{jiéyuēnéngyuán} 节约能源

L.I.: Living Land 生活的土地 - vocabulary

S.C.: I can say and write 生活, 土地.

We looked at problems the earth faces and what we can do to take care of it. Now we are going to look at the two places on earth that we should be familiar with. Having done Australia in Year 3, it is China now where most of your parents or grandparents are from.

First, we need to build up our vocabulary. Don't forget to go to Yabla to listen to the pronunciation.

生 is born or life while 活 is to live or alive. Combining them is the expression 生活 living or livelihood.

Practise the Chinese characters.

土 is dirt or earth, 地 is earth or ground. Combining them is the expression 土地 land or earth. If you look closely, you can see 土 is actually the left half of 地 and it is the radical for the character 地 as land is made up mainly of dirt.
