Here are the answers to Week 8 worksheets.

What is a dynasty? **A dynasty is a succession of rulers from the same family. Beginning with the Bronze Age Shang dynasty, historical eras in China have borne the name of the family or clan that dominated during that period.**

What is the next dynasty? **Qin dynasty 秦朝**. The ruler was the first Chinese sovereign to proclaim himself "Emperor" and he started building the Great Wall of China.

L.I.: History of China 中国历史 – 秦朝

S.C.: - I know who the First Emperor is.

- I can complete Part one of the comprehension activity.

Let's continue from last week and look at the next dynasty. Qin dynasty 221-207BC was very short and there were only two kings. However, the first king who self-proclaimed himself as the First Emperor is very important and had a great impact on Chinese history and civilisation. You might want to go to Yabla to find out what these words mean first.

shǐhuángdì 始皇帝 (始 as in 开始 so type in 'kaishi' followed by 'huangdi').

zhànguóqīxióng 战国七雄 refers to the chaotic time during the Warring period 475-221BC when there were seven states of great power constantly at war with each other.

SCAN ME, listen to Part 1 and read the text to find out why.
